

The company « **Fluance** », located in Solothurn, offers consulting and project management in healthcare.

We lead and support your projects in medical IT, radiology, cardiology, laboratory and medical diagnostics (RIS/PACS, CIS, LIS, modalities etc.).

- ☞ We help you with upcoming system changes.
- ☞ We'll find together improvements in your medical IT environment.
- ☞ We provide our expertise in meetings and negotiations.
- ☞ We conduct training courses and presentations on current topics of eHealth.
- ☞ We analyse complex situations for you, provide an outside view and help you, to get stuck situations unstuck again.
- ☞ We'll provide the matching experts and specialists for you.
- ☞ We are 100% independent and vendor neutral.

« We'll develop your idea, negotiate with the vendor of your choice and lead the project together with all participants.

Starting from evaluation until production, we'll be there - with and for you. »
